

It's Your Turn to Speak Up!

Pope Francis has launched a worldwide synod to examine how the Church listens to and walks with ALL the faithful, from active parishioners to those who feel disaffected or marginalized. Cardinal Joseph Tobin emphasizes that “the synod will shine a light on the cracks of our Church” and is an opportunity for a “change of a culture of our Church at all levels.”

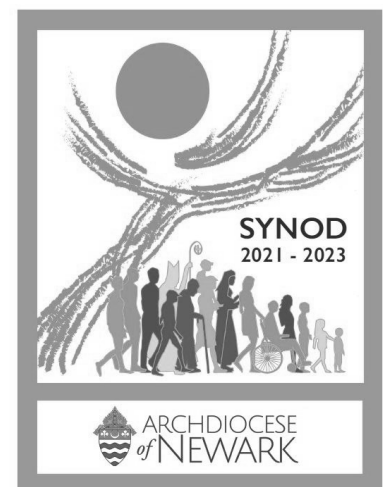

Will you be a changemaker? Join us for one of these listening sessions as we gather your perspectives on the state of the Church.
